ARCHIVES OF ORAL BIOLOGY

EDITORS-IN-CHIEF

Dr D. B. FERGUSON, Department of Physiological Sciences, Stopford Building, University of Manchester, Manchester M13 9PT, U.K.

Dr E. J. KOLLAR, Department of Oral Biology, University of Connecticut Health Center, Farmington, CT 06032, U.S.A.

ACCEPTING EDITORS

Dr R. M. HOPPS, Department of Oral Biology, Institute of Dental Surgery, 256 Gray's Inn Road, London WC1X 8LD, U.K.

Professor T. LEHNER, Department of Immunology, Guy's Hospital, Guy's Tower, Floor 28, London SE1 9RT, U.K.

Dr J. SODEK, Faculty of Dentistry, University of Toronto, Ontario, Canada M5S 1A8

ADVISORY BOARD

W. H. BOWEN (Rochester, U.S.A.)
W. T. BUTLER (Houston, U.S.A.)
G. CIMASONI (Geneva, Switzerland)
M. W. J. FERGUSON (Manchester, U.K.)
S. HAMADA (Osaka, Japan)
M. J. LEVINE (Buffalo, U.S.A.)
J. R. MARTINEZ (Albuquerque, U.S.A.)
C. E. NORD (Stockholm, Sweden)
J. V. RUCH (Strasbourg, France)
H. E. SCHROEDER (Zurich, Switzerland)
B. J. SESSLE (Toronto, Canada)
J. A. WEATHERELL (Leeds, U.K.)

Editorial Assistant: Dr M. EDWARDS

AIMS AND SCOPE

The *Archives of Oral Biology* publishes papers concerned with advances in knowledge of every aspect of the oral and dental tissues and bone over the whole range of vertebrates, whether from the standpoint of anatomy, bacteriology, biophysics, chemistry, DNA biotechnology, epidemiology, genetics, immunology, molecular biology, palaeontology, pathology, physiology or otherwise.

Publishing Office: Pergamon Press Ltd, Pergamon House, Bampfylde Street, Exeter EX1 2AH, U.K. [*Tel.* Exeter (0392) 51558; *Fax* 425370]. *Production Editor:* J. A. TURNER.

Subscription and Advertising Offices: North America: Pergamon Press Inc., 660 White Plains Road, Tarrytown, NY 10591-5153, U.S.A. Rest of the World: Pergamon Press Ltd, Headington Hill Hall, Oxford OX3 0BW, U.K. [*Tel.* Oxford (0865) 794141].

Annual Institutional Subscription Rates 1994: North, Central and South America, U.S.$1155.00; Rest of World, £749.00. Associated Personal Subscription Rates are available on request for those whose institutions are library subscribers. Sterling prices exclude VAT. Non-VAT registered customers in the European Community will be charged the appropriate VAT in addition to the price listed. Prices include postage and insurance and are subject to change without notice. *Back Issues:* Back issues of all previously published volumes, in both hard copy and on microform are available direct from Pergamon Press offices.

Published Monthly. Copyright © 1993 Pergamon Press Ltd

Second class postage paid at RAHWAY NJ. Postmaster send address corrections to *Archives of Oral Biology*, Pergamon Press Inc., 660 White Plains Road, Tarrytown, NY 10591-5153, U.S.A.

LIST OF CONTENTS

NUMBER 1

	Editorial	III
	Instructions to Contributors	V
J. APPLETON	The structure of dentine after the injection of strontium chloride by backscattered electron imaging in the scanning electron microscope	1
MICHAEL A. BARRY and LAWRENCE D. SAVOY	Persistence and calcium-dependent ATPase staining of denervated fungiform taste buds in the hamster	5
LIPA BODNER, DAN DAYAN, YAFFA PINTO and ILAN HAMMEL	Characteristics of palatal wound healing in desalivated rats	17
T. KUBOTA, M. YAMAUCHI, J. ONOZAKI, S. SATO, Y. SUZUKI and J. SODEK	Influence of an intermittent compressive force on matrix protein expression by ROS 17/2.8 cells, with selective stimulation of osteopontin	23
T. OKIJI, I. MORITA, N. KAWASHIMA, T. KOSAKA, H. SUDA and S. MUROTA	Immunohistochemical detection of prostaglandin I_2 synthase in various calcified tissue-forming cells in rat	31
C. KITAMURA, M. TERASHITA, K. TOYOSHIMA and T. NOGUCHI	The presence of vesicles containing lactate dehydrogenase in the ameloblast layer of bovine enamel organ	37
TOMOYUKI KAWASE, MICHIAKI ORIKASA and AKITOSHI SUZUKI	Effect of bradykinin on intracellular signalling systems in a rat clonal dental pulp-cell line	43
HELI VINKKA-PUHAKKA and IRMA THESLEFF	Initiation of secondary cartilage in the mandible of the Syrian hamster in the absence of muscle function	49
J. M. A. WILTON, J. L. M. BAMPTON, T. J. HURST, J. CAVES and J. R. POWELL	Interleukin-1β and IgG subclass concentrations in gingival crevicular fluid from patients with adult periodontitis	55
DAVID L. COCHRAN and CHERYL A. ROUSE	The effect of conditioned medium from connective tissue fibroblasts and epithelium on calcium release from mouse calvarial organ culture	61
JANICE J. WILMOT, D. J. CHIEGO JR, D. S. CARLSON, C. T. HANKS and J. J. MOSKWA	Autoradiographic study of the effects of pulsed electromagnetic fields on bone and cartilage growth in juvenile rats	67
EMIKO ISOGAI, HITOMI WAKIZAKA, HIROKO MIURA, HIROSHI ISOGAI and MASANOBU HAYASHI	Neutrophil dysfunction in rats with natural gingivitis	75
J. D. HARRISON, A. TRIANTAFYLLOU and J. R. GARRETT	The effect of sympathectomy on the occurrence of microliths in salivary glands of cat as studied by light and electron microscopy	79
L. JARA, A. ONDARZA, R. BLANCO and C. VALENZUELA	The sequence of eruption of the permanent dentition in a Chilean sample with Down's syndrome	85
Short Communications		
B. K. B. BERKOVITZ and H. ROBERTSHAW	Ultrastructural quantification of collagen in the articular disc of the temporomandibular joint of the rabbit	91
E. R. VAN DER GRAAF and J. J. TEN BOSCH	Changes in dimensions and weight of human dentine after different drying procedures and during subsequent rehydration	97

NUMBER 2

T. LAINE and L. ALVESALO	Palatal and mandibular arch morphology in 47, XYY men and in other sex-chromosome anomalies	101

G. Menghi, P. Scocco and P. Ceccarelli	Basic and lectin histochemistry for studying glycoconjugates in the lingual salivary glands of the Japanese quail (*Coturnix coturnix japonica*)	649
A. M. Adams, J. V. Soames and R. F. Searle	Cultural and morphological characteristics of human periodontal ligament cells *in vitro*	657
A. R. Loescher, S. Al-Emran, P. G. Sullivan and P. P. Robinson	Characteristics of periodontal mechanoreceptors supplying cat canine teeth which have sustained orthodontic forces	663
Osamu Amano and Shoichi Iseki	Expression, localization and developmental regulation of insulin-like growth factor I mRNA in rat submandibular gland	671
Ashraf F. Ayoub and David R. Stirrups	The practicability of finite-element analysis for assessing changes in human craniofacial morphology from cephalographs	679
J. J. Sciote	Fibre type distribution in the muscle spindles of cat jaw-elevator muscles	685
F. Lobbezoo, H. W. van der Glas, A. van der Bilt, R. Buchner and F. Bosman	Bilateral asymmetries in the jaw-jerk reflex activity in man	689
R. A. Burn-Murdoch	The effect of the consistency of the diet on eruption rates and lengths of incisor teeth in rats	699
J. L. Davideau, M. R. Celio, D. Hotton and A. Berdal	Developmental pattern and subcellular localization of parvalbumin in the rat tooth germ	707
A. C. Smillie, J. C. Rodda and D. Young	The protein of pigmented Polynesian dental enamel	717
Short Communication		
T. Itotagawa, H. Yamanaka, S. Wakisaka, Y. Sasaki, J. Kato, K. Kurisu and Y. Tsuchitani	Appearance of neuropeptide Y-like immunoreactive cells in the rat trigeminal ganglion following dental injuries	725

NUMBER 9

Hideo Miyazaki, Yoshiko Yamaguchi and Tadamichi Takehara	Dental arch and palate in Taiwan Aboriginals—Ami, Bunun, Paiwan and Rukai tribes	729
B. H. Clarkson, S. P. McCurdy, D. Gaz and A. R. Hand	Effects of phosphoprotein on collagen fibril formation *in vitro*	737
B. Peretz and P. Smith	Morphometric variables of developing primary mandibular second molars	745
S. Moret, J. L. Coudert, C. Bejat, O. Robin and M. Lissac	The influence of basal anxiety on unstimulated parotid and submandibular saliva	751
R. J. Shern, P. C. Fox and S. H. Li	Influence of age on the secretory rates of the human minor salivary glands and whole saliva	755
John Leonora, Jean-Marc Tieche and Ralph R. Steinman	Stimulation of intradentinal dye penetration by feeding in the rat	763
S. Kasugai, S. Shibata, S. Suzuki, T. Susami and H. Ogura	Characterization of a system of mineralized-tissue formation by rat dental pulp cells in culture	769
Karnam R. Purushotham, Pao-Li Wang, Calogero Dolce, Tivadar Zelles, Josef Blazsek and Michael G. Humphreys-Beher	Effects of surgical ovariectomy on rat salivary gland function	779
S. Kasugai and H. Ogura	The effects of cytoskeletal inhibitors on the collagen gel contraction by dog periodontal ligament fibroblasts *in vitro*	785
Thomas V. Di Stefano and D. Vincent Provenza	Molar odontogenesis in the trisomic 16 mouse	793

Robert M. Davidson	Potassium currents in cells derived from human dental pulp	803
A. R. Loescher, G. R. Holland and P. P. Robinson	The distribution and morphological characteristics of axons innervating the periodontal ligament of reimplanted teeth in cats	813
Short Communication		
S. S. Whitcomb, L. R. Eversole and R. A. Lindemann	Immunohistochemical mapping of epidermal growth-factor receptors in normal human oral soft tissue	823

NUMBER 10

G. B. Proctor, D. K. Shori, K.-M. Chan and J. R. Garrett	Asynchronous reformation of individual kallikrein-related secretory proteinases in rat submandibular glands following degranulation by cyclocytidine	827
B. K. B. Berkovitz, M. Maden and U. Eriksson	The distribution of cellular retinoic acid-binding protein I during odontogenesis in the rat incisor	837
S. Shibata, S. Suzuki, Y. Yamashita and T. Ichijo	A comparative ultrastructural study of the mitotic chondrogenic cells in the mandibular condyle and tibial growth plate of the rat	845
A. C. O'Connell, B. C. Van Wuyckhuyse, S. K. Pearson and W. H. Bowen	The effect of propranolol on salivary gland function and dental caries development in young and aged rats	853
M. Tanaka, E. C. Moreno and H. C. Margolis	Effect of fluoride incorporation into human dental enamel on its demineralization *in vitro*	863
R. M. Nohutcu, L. K. McCauley, J. E. Horton, C. C. Capen and T. J. Rosol	Effects of hormones and cytokines on stimulation of adenylate cyclase and intracellular calcium concentration in human and canine periodontal-ligament fibroblasts	871
Anna Maria Gargiulo, Vera Pedini and Piero Ceccarelli	Lectin histochemical study of bovine lingual glands	881
M. Rosenhek, L. M. D. Macpherson and C. Dawes	The effects of chewing-gum stick size and duration of chewing on salivary flow rate and sucrose and bicarbonate concentrations	885
N. P. Kerezoudis, L. Olgart and L. Edwall	Evans blue extravasation in rat dental pulp and oral tissues induced by electrical stimulation of the inferior alveolar nerve	893
Jonathan A. Garlick and Lorne B. Taichman	The fate of genetically marked human oral keratinocytes *in vitro*	903
J. Leonora, J.-M. Tieche and R. R. Steinman	Further evidence for a hypothalamus-parotid gland endocrine axis in the rat	911
Short Communications		
Takashi Mizuno, Atsuko Igarashi and Hiroyoshi Nohara	Partial sequencing of two forms of concanavalin A-unbound collagenase inhibitor from bovine gingiva	917
T. Nakamoto, S. L. Cheuk, S. Yoshino, A. U. Falster and W. B. Simmons	Cariogenic effect of caffeine intake during lactation on first molars of newborn rats	919

NUMBER 11

Isao Saito, Kooji Hanada and Takeyasu Maeda	Alteration of nerve growth factor-receptor expression in the periodontal ligament of the rat during experimental tooth movement	923
D. L. Cross, J. A. Ellender and G. L. F. Smith	Simultaneous hybridization and subsequent colour detection of subgingival bacterial DNA on colony lifts	931
J. P. Conry, L. B. Messer, J. C. Boraas, D. P. Aeppli and T. J. Bouchard Jr	Dental caries and treatment characteristics in human twins reared apart	937
J. T. Wright, L. B. Johnson and J.-D. Fine	Developmental defects of enamel in humans with hereditary epidermolysis bullosa	945

D. Roux, C. Meunier and A. Woda — A biometric analysis in the rat of the horizontal component of physiological tooth migration and its response to altered occlusal function 957

E. Foster and P. P. Robinson — The incidence and distribution of branched pulpal axons in the adult ferret 965

G. B. Proctor, D. K. Shori and V. R. Preedy — Protein synthesis in the major salivary glands of the rat and the effects of re-feeding and acute ethanol injection 971

C. Wyss, P. Hunziker and S. Klauser — Support of peptide-dependent growth of *Bacteroides forsythus* by synthetic fragments of haemoglobin or fetuin 979

F. K. Wahab, R. P. Shellis and R. J. Elderton — Effects of low fluoride concentrations on formation of caries-like lesions in human enamel in a sequential-transfer bacterial system 985

C. F. Richardson, M. Johnsson, P. A. Raj, M. J. Levine and G. H. Nancollas — The influence of histatin-5 fragments on the mineralization of hydroxyapatite 997

John H. Kinney, Mehdi Balooch, Grayson W. Marshall and Sally J. Marshall — Atomic-force microscopic study of dimensional changes in human dentine during drying 1003

K. Toyoshima, Y. Seta and A. Shimamura — Fine structure of Merkel corpuscles in the lingual mucosa of Japanese quail, *Coturnix coturnix japonica* 1009

H. C. van der Mei, D. Naumann and H. J. Busscher — Grouping of oral streptococcal species using Fourier-transform infrared spectroscopy in comparison with classical microbiological identification 1013

Short Communication

Peng Yeong Woon, Kandiah Jeyaseelan and Pangajavalli Thiyagarajah — Stimulation of RNA synthesis in rat parotid lobules by phorbol myristate acetate 1021

NUMBER 12

R. P. Tucker, J. R. D. Moiseiwitsch and J. M. Lauder — *In situ* localization of tenascin mRNA in developing mouse teeth 1025

Kenneth S. Prostak, Philip Seifert and Ziedonis Skobe — Enameloid formation in two tetraodontiform fish species with high and low fluoride contents in enameloid 1031

C. Y. Wu-Wang, S.-L. Wang, M. Brigham, A. Correa, A. Slomiany and B. L. Slomiany — Effects of benzo(a)pyrene and nicotine on prostaglandin synthesis in buccal pouch and submandibular glands of the Syrian hamster 1045

A. R. Terzian and R. P. Rubin — Translocation of the α-isozyme of protein kinase C during stimulation of rat parotid acinar cells by phorbol ester and carbachol 1051

H. Nikawa, L. P. Samaranayake, J. Tenovuo, K. M. Pang and T. Hamada — The fungicidal effect of human lactoferrin on *Candida albicans* and *Candida krusei* 1057

Akifumi Togari, Makoto Kondo, Michitsugu Arai and Shosei Matsumoto — *In vivo* and *in vitro* study of the effects of chlorpromazine on tooth mineralization in rats and mice 1065

U. Kierdorf, H. Kierdorf and O. Fejerskov — Fluoride-induced developmental changes in enamel and dentine of European roe deer (*Capreolus capreolus* L.) as a result of environmental pollution 1071

P. J. W. Jüch, R. F. Minkels and J. D. van Willigen — Inhibitory commissural connections of neurones in the trigeminal motor nucleus of the rat 1083

M. Mukai, M. Ikeda, T. Yanagihara, G. Hara, K. Kato, H. Nakagaki and C. Robinson — Fluoride uptake in human dentine from glass-ionomer cement *in vivo* 1093

Anastassia E. Kossioni and Hercules C. Karkazis — Reproducibility of the human masseteric jaw-jerk reflex in association with the menstrual cycle 1099

K. A. A. S. Warnakulasuriya and D. G. MacDonald — Diurnal variation in labelling index in human buccal epithelium — 1107

Lars Rosén Christensen, Mette Stagaard Janas, Kjeld Møllgård and Inger Kjær — An immunocytochemical study of the innervation of developing human fetal teeth using protein gene product 9.5 (PGP 9.5) — 1113

S. L. Bellavía, E. G. Sanz, R. V. Gallará, A. Carpentieri and N. T. Vermouth — Effect of sympathetic denervation of the pineal gland on maternal co-ordination of the circadian rhythm of α-amylase in parotid gland from young rats — 1121

Toshikazu Nagato and Hiroshi Masuno — Lipid droplet accumulation and lipoprotein lipase activity in the rat salivary gland during the perinatal period — 1127

Short Communication

Makio Mogi, Minoru Harada, Toshitaka Kage, Takehiro Chino and Kazusada Yoshitake — Two-dimensional electrophoresis of human salivary proteins from patients with sialoadenopathy — 1135

Announcement — i
